

Onexar Arbitrage Terms & Trading Restrictions

Onexar Ltd strictly prohibits **arbitrage trading** to ensure **fair and transparent trading conditions**. Arbitrage-based strategies exploit technical inefficiencies in pricing, leading to **liquidity imbalances and potential financial risks** for the brokerage and its clients. As such, the following rules and restrictions apply to all traders using Onexar Ltd's trading platforms.

Definition of Arbitrage Trading

Arbitrage trading refers to **exploiting price discrepancies** between different markets, platforms, or liquidity providers by placing **simultaneous buy and sell orders** to generate risk-free profits. The following forms of arbitrage are **strictly prohibited** on Onexar Ltd's platform:

- **Latency Arbitrage:** Taking advantage of **execution delays** due to network latency.
- **Hedge-Based Arbitrage:** Using two different accounts (either under the same or different names) to place **opposite trades** simultaneously.
- **Cross-Market Arbitrage:** Exploiting price differences between **currency futures, spot forex, CFDs, and commodities**.
- **Multi-Account Manipulation:** Engaging in arbitrage trading using multiple accounts under the **same IP address** or controlled by a single entity.

If detected, arbitrage trades will be canceled, and strict penalties will be applied.

Minimum Holding Period for Trades

To prevent **high-frequency arbitrage**, **Onexar** Ltd enforces a **minimum trade holding period**:

- Trades must remain open for at least **30 seconds** before closing.
- Orders closed **within 30 seconds** may be subject to review, and **profits from arbitrage-like trades may be revoked**.
- If multiple accounts (using the same IP) **place offsetting trades within this time frame**, Onexar Ltd reserves the right to **take corrective action**.

Onexar Ltd reserves the right to investigate and take appropriate action if arbitrage trading is suspected.

Consequences of Arbitrage Trading

If arbitrage trading is detected, **Onexar** Ltd reserves the right to:

- Deduct any profits generated from arbitrage-based trades.
- Reverse transactions or cancel arbitrage-related orders.
- Deduct the initial deposit if excessive arbitrage activity is found.
- Suspend or permanently close accounts engaging in arbitrage.
- Prevent withdrawals if arbitrage abuse is identified.

Arbitrage trading disrupts market stability and affects liquidity providers. **Onexar** Ltd enforces strict measures to protect its platform and legitimate traders.

Hedge-Based Arbitrage Restrictions

Hedge-based arbitrage is a **strictly prohibited practice** where traders **open two opposite positions using different accounts to manipulate the system.**

Hedge-Based Arbitrage Includes:

- Two accounts under the same name placing **opposite trades** at the same time.
- Using different brokers to **hedge positions and exploit execution lags.**
- Placing buy/sell trades on different accounts **using the same IP address or device.**

If hedge-based arbitrage is detected, **Onexar** Ltd reserves the right to cancel all trades and take further actions without prior notice.

Legal & Trading Penalties

If any client engages in arbitrage trading, either **clearly or in a hidden manner**, **Onexar** Ltd reserves the right to:

- **Cancel such trades and reverse all arbitrage-related transactions.**
- **Deduct any profits gained through arbitrage.**
- **Restrict access to deposits and withhold excess funds.**
- **Suspend or permanently block trading accounts.**
- **Permanently disallow participation in **Onexar's** platform.**

Arbitrage is considered a form of market manipulation and is illegal trading behavior.

Client Responsibility & Compliance

By opening a trading account with **Onexar** Ltd, clients agree to:

- Abide by **all trading restrictions and fair use policies**.
- Avoid **any form of market abuse or arbitrage**.
- Maintain compliance with **Onexar Ltd's trading conditions** and regulatory guidelines.

Onexar Ltd reserves the right to update or modify these terms at any time to ensure market fairness and liquidity integrity.

Final Notice

- ❖ Arbitrage trading is strictly monitored. Any attempt to exploit market inefficiencies will result in account suspension, fund deductions, and permanent restrictions.
 - ❖ Need clarification? Contact **Onexar** Ltd's support team before placing trades.
